### PROFILE

As a software developer and a computer science major, I have programming concepts and hands-on experience with one or more programming languages. Some programming languages I use in software development include Python, Html, CSS, C++, and JavaScript.

In addition to my technical skills, I have strong problem-solving skills, attention to detail, and the ability to work well in a team. I also communicate effectively with both technical and non-technical stakeholders.

### SKILLS

- HTML5
- CSS3
- JAVASCRIPT
- DJANGO
- GIT & GITHUB
- PYTHON
- FRONT-END DEVELOPMENT
- SOFTWARE DEVELOPMENT
- JQUERY
- SCSS

### EXPERIENCE

#### Autotronix

6/2021-9/2021

During my three-month work experience at Autotronix, a reputable car key programming company, I had the opportunity to gain valuable skills in key cutting and programming spare and new car keys. Working alongside the skilled professionals at Autotronix was an incredible experience, as they guided me through the intricacies of the process and helped me develop a deep understanding of the field. I thoroughly enjoyed my time there and appreciated the collaborative and supportive work environment. The hands-on nature of the job and the satisfaction of successfully programming keys for various vehicles further fueled my passion for this line of work. Overall, my experience at Autotronix was truly enriching, and I am grateful for the opportunity to contribute to their team.

### EDUCATION

#### BSc. Computer Science

7/2025

African Nazarene University. Ongata Rongai, Nairobi  
Kenya
